1. CALL TO ORDER

Mark Hake called the meeting to order at 2:31 p.m.

2. APPROVAL OF MINUTES

Mark Hake asked for a motion to approve the April 3, 2018, meeting minutes. The motion was moved by Sean Thuilliez and seconded by Vince Fabrizio. Minutes were approved and stand as written.

3. SB 678/CCPIA UPDATE

Tari Dolstra provided an overview and update of the Community Supervision Oversight Unit statistics and evidence-based programs funded by the Community Corrections Performance Incentive Act (CCPIA), formerly known as SB 678. CCPIA was designed to ensure evidence-based practices were incorporated into probation departments' operations. The goals were to ultimately

reduce the number of probationers sentenced to state prison and reduce recidivism. In 2011, the Community Corrections Performance Incentive Act essentially replaced SB 678 and added specific performance measures, required data driven decision making, and improved outcomes.

The metric used by the state to gauge probation departments' performance is the Probation Failure Rate. The formula has been modified several times since 2011. The most recent Probation Failure Rate/funding formula for 2018 was calculated as the total number of adult felony probationers sentenced to state prison from that county as a percentage of the county's average adult felony population for that year. The formula takes into account revocations resulting in State Prison only, and no longer takes into account PC 1170(h) sentences. Based on the current formula, the 2018 failure rate for Riverside County is 4.5%.

Director Dolstra shared surrounding counties failure rate:

- 5.2% - San Bernardino
- 2.31% - Los Angeles
- 2.15% - Orange
- 4.32% - San Diego

The initial funding of \$2.8M was awarded in 2010 for the two-year grant period ending September 2012. The funds were used to implement new evidence-based programs and funded 15 new positions. To date, CCPIA funds a total of 67 positions. The estimated overall statewide allocation is \$109.32M for FY 2018/19. It is estimated Riverside County's share may be \$6.45M.

#### Historical Allocations to Riverside County:

- FY 2011/12 was \$8.96M
- FY 2012/13 was \$10.64M
- FY 2013/14 was \$5.78M
- FY 2014/15 was \$3.11M
- FY 2015/16 was \$7.16M
- FY 2016/17 was \$8.53M
- FY 2017/18 was \$6.56M
- FY 2018/19 was \$6.45M

In 2018, probation continued to focus on training staff in their respective assignments. A vital component to probation supervision practices has been the incorporation of evidence-based training for staff, specifically supervision officers. Evidence-based training classes provide a foundation for effective supervision, with the goal of successful community integration. Motivational Interviewing (MI) classes emphasize effective communication with clients. These classes teach staff to collaborate with and promote self-change within clients. Correctional Offender Management Profiling for Alternative Sanctions (COMPAS) is a validated risk/needs assessment tool. This class teaches staff how to utilize the software, which in turn helps probation officers to identify client criminogenic needs and to assess the appropriate supervision levels. Courage to Change (C2C) is a form of cognitive-behavioral treatment. Staff are trained to utilize this interactive journaling tool to help offenders re-evaluate their thought processes. These services are offered in groups or on an individual basis. Incentives and Sanctions Matrices are also utilized to motivate client behavior change toward success through the use of client-centered rewards and progressive sanctions to help reduce supervision violations and recidivism.

Incentives and Sanctions Matrices

During Calendar Year 2018:

- 16,971 behaviors received incentive responses.
- 6,616 behaviors received sanction responses.
